

# YAAAAS

THE APP WHERE HIGH SCHOOL STUDENTS COMPLIMENT EACH OTHER.

## INTRODUCING YAAAS.

### A Positive & Safe Space for Gen Z's to Compliment Each Other.

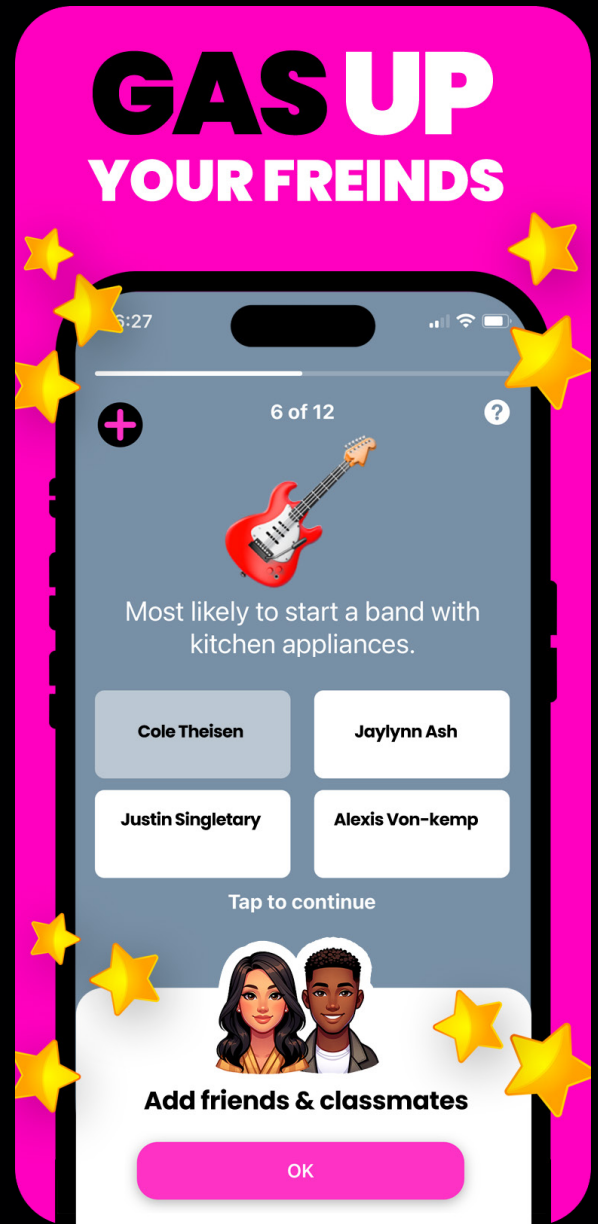

YAAAS is a fun, safe, and secure app created to help teens easily compliment one another within their social circles, whether at school or online. Designed specifically with high school students in mind, YAAAS provides a platform where users can share positivity and uplift their peers through anonymous surveys.

### What is YAAAS?

YAAAS allows high school students to "Gas-up" their friends and classmates in a fun and engaging way. The app centers around positivity, giving teens the opportunity to spread kindness through peer-to-peer polls.

### How It Works.

In the YAAAS app, users participate in anonymous polls that prompt them with questions like "Should DJ every party?" or "Their smile makes my heart melt." After voting for a friend, the selected person receives a "Star," letting them know someone voted for them. This unique feature creates an atmosphere of encouragement, making YAAAS a positive twist on traditional social media.

## SAFETY & PRIVACY

YAAAS is committed to ensuring a safe environment for young users. The app restricts participation to friends only. Users interact exclusively with their peers, not strangers. After joining their school, users only see classmates in polls, maintaining a secure and familiar community. While adults can use YAAAS, they are limited to interacting with their phone contacts and cannot join schools. Additionally, YAAAS does not allow direct messaging, with communication limited to pre-approved and monitored polls.

### **Safe. Secure. No Bullies. No Nonsense.**

Here are some of the core features within YAAAS that keep our users/students safe:

- We only let friends, contacts, and classmates vote on each other. Never strangers.
- We do not allow direct messaging between users, even if you are friends.
- All polls are positive & uplifting so you can never be bullied.
- We review reports every day and remove users who break the rules.

## FAQ'S

**How much does YAAAS cost?** Complimenting friends on YAAAS is always free, but we offer upgrades to enhance your experience.

**Can I see who answered a poll about me?** By default, you can only see the grade and gender of the person who voted for you. However, you can reveal the sender by upgrading to Ghost Mode.

**Are the messages real?** Yes, all polls are sent by your friends, classmates, or contacts. We do not auto-generate messages.

**What are Stars?** Stars are awarded when you are selected in a poll.

**What are Coins?** Coins are earned by answering polls about your friends. You can use coins to put your name in your friends' polls.

**What is Ghost Mode?** Ghost Mode is a subscription that offers:

- Unlimited hints
- Two bonus reveals
- Double coins
- "Like" alerts
- Anonymous mode (send safe polls anonymously)

**How do I get Ghost Mode?** You can purchase Ghost Mode by tapping 'See who likes you' in your inbox or within a received poll. It's being rolled out to a limited number of users, so check back if it's not available yet.

**Is Ghost Mode private?** Yes, Ghost Mode is 100% private. YAAAS does not show who has it.
